Romain Guilloteau
Senior Full Stack Engineer

Experiences

BuyCo
Lead Software Engineer - Backend Software Engineer
Since 2021 in Marseille (Full Remote)

Originally brought in for my expertise on projects architecture, Ruby on Rails and to enforce good practices, I'm now the lead of a team dedicated to the public APIs and shipment tracking.

Swile
Innovation Team Leader - Software Engineer
From 2018 to 2021 in Montpellier

I worked on the food delivery platform when the company was named Lunchr. When it shifted to a neobank, I moved on the affiliates side and payment networks, of which I became a lead.

Codeur
Lead Developer and Software Architect
From 2015 to 2018 in Annecy

I built Graphiste.com (a designer job board) and Facture.net (an invoicing tool) from the ground up and implemented some major features and rewrites for their other websites.

1Year1Book
Lead developer
From 2013 to 2014 in Paris

I created from scratch the new version of their SaaS social network, as-well as the front facing website and internal tools used to boot and configure an instance and to monitor each of them.
